PROFESSIONAL SUMMARY

Final-year **Integrated M.Sc. Information Technology** candidate at **Anna University** with software development internship experience at **IIT Madras** and **Atsuya Technologies**. Proficient in full-stack web architecture (**Node.js, React.js, FastAPI, PostgreSQL**) and AI model integration (**PyTorch, Vision Transformers, RAG**). Demonstrated success in architecting high-concurrency systems, multi-tenant RBAC solutions, and reducing manual operational overhead by **35%**.

TECHNICAL SKILLS

- **Languages & Core:** Python, JavaScript (ES6+), SQL, Shell/Bash Scripting, Linux/Unix Environments
- **Full-Stack & Web:** Node.js, Express.js, FastAPI, React.js, RESTful APIs, PostgreSQL, SQLAlchemy, JWT Auth, RBAC
- **AI / ML & Data Science:** PyTorch, Hugging Face (Vision Transformers - ViT), Scikit-Learn, RAG Vector Search & Embeddings, Data Analysis
- **DevOps & Tools:** Docker, Docker Compose, Git, GitHub, Linux CLI, Postman, System Debugging, Agile/Scrum Development

PROFESSIONAL EXPERIENCE

Software Development Intern

Jan 2026 – May 2026 | Chennai, India

CSTF, IIT Madras

- Engineered & deployed a high-concurrency full-stack fleet management platform using **Node.js, Express.js, React.js, and PostgreSQL**, serving **100+ active institutional users** with **99.9% uptime**.
- Architected secure RESTful APIs, asynchronous logic, **JWT authentication**, and multi-tier **Role-Based Access Control (RBAC)** to automate complex multi-level approval workflows and eliminate manual delay.
- Maintained server reliability through systematic Linux debugging, endpoint validation, automated email trigger notifications, and Docker containerized deployment.
- Collaborated within an Agile engineering team using Git and GitHub for feature branching, code reviews, and automated CI issue tracking.

Software Development Engineer Intern

July 2024 – Dec 2024 | Chennai, India

Atsuya Technologies Pvt. Ltd.

- Developed and deployed custom web features, administrative plugins, and PHP/JavaScript API integrations, reducing manual administrative operational overhead by **35%**.
- Implemented structured schema markups, Linux server setup optimizations, and page speed enhancements, significantly improving technical SEO performance and domain visibility.
- Partnered with cross-functional product development teams to deliver core feature enhancements on schedule within tight Agile sprints.

KEY PROJECTS & RESEARCH

Smart Fleet Management & Authentication System

IIT Madras

Full-Stack & Systems Architecture

- Architected a centralized institutional portal integrating **LDAP authentication** for seamless credential verification across university systems.
- Programmed real-time vehicle availability checking, driver assignment algorithms, audit logging, and conflict prevention modules under high concurrent load.

Multi-Tenant Hotel PMS & Cloud Booking Platform

FastAPI / React 19 / PostgreSQL / Docker

Full-Stack & Cloud Systems Architecture

- Architected a multi-tenant portal with **FastAPI, React 19, and PostgreSQL**, enforcing tenant data isolation via dynamic X-Property-ID header routing and multi-tier RBAC for hotel chains.
- Engineered real-time room conflict prevention, digital KYC verification (Aadhaar/Passport preview modal), dynamic payment reconciliation (Fully Paid / Advance / Pay at Checkout), and containerized **Docker** CI/CD deployment.

Blood Cell Classification using Vision Transformer (ViT)

Python / PyTorch / Hugging Face

Deep Learning & Image Processing Research

- Fine-tuned **Vision Transformer (ViT)** models via Hugging Face & PyTorch on microscopic blood cell datasets, achieving **94%+ classification accuracy** across white blood cell types.
- Performed quantitative dataset processing, feature extraction, and statistical evaluation metrics to validate model precision and recall.

EDUCATION & LEADERSHIP

Master of Science (Integrated) in Information Technology — Anna University, Chennai

2021 – 2026 | CGPA: 7.00 / 10

Higher Secondary Certificate (HSC) — Sri Jayendra Matric. HSS, Trichy

2020 – 2021 | Score: 92%

- **Vice Chairperson (Dept. of Mathematics, 2025–26):** Led a committee of 15+ student coordinators in organizing technical symposia & workshops for **500+ attendees**.
- **General Secretary (NSS Unit-6, 2023–24):** Managed community outreach programs, volunteer scheduling, and social impact campaigns.
- **Languages:** English (Proficient), Tamil (Native), Malayalam (Basic), Hindi (Intermediate).
